

WHERE CAN I RIDE MY SCOOTER?

Hey is that minibike supposed to be running down the sidewalk? Is that ATV buzzing down the street supposed to be there? There has been a lot of questions regarding the operation of scooters, mopeds, golf carts and atvs within the neighborhood. What can I ride on the street and where is that definition in the Lincoln Municipal Code?

At the September Arnold Heights Neighborhood Association meeting Police Captain Travis Banks shared with us a handout listing operating specifics for various types of motor-

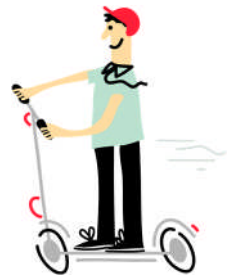

ized vehicles. We felt it pertinent to share this with the grater community and you will see it on the 2nd page of this newsletter.

Can I drive my golf cart on the street? Yes, but only between sunrise and sunset, I didn't know that. An electric scooter can be classified two ways, if it is a personal use device can be operated on the street but a Shared Mobility Device requires a drivers license.

Shared mobility devices refer to transportation services that allow users to share vehicles, bicycles, or other mo-

des of transport, such as the scooters and bicycles in the downtown area.

Use this document as you may and contact law enforcement if you have questions. Captain Banks or one of his team are at the Arnold Heights Neighborhood Association meetings when we meet every other month. Our next meeting will be November 4th at the Airpark Community Center.
